CHILD & YOUTH PRE-MOLDED ORTHOTICS

Child and Youth Pre-molded Orthotics. These orthotics provide the highest level of comfort and control to help growing feet develop a more accurate functioning position. The 3D-printed shell is extremely durable.

Child Sizes incorporate medial and lateral flanges along with a deep heel cup to provide maximum control. Available in child sizes only, gait extensions greatly reduce in toeing or out toeing which promotes correct foot function through the gait cycle.

Youth sizes feature a slightly lower heel cup and medial flange only. This promotes proper range of motion through the gait cycle.

NOTES
